DATEJUST 41

## DATEJUST 41

OYSTER, 41 MM, OYSTERSTEEL AND YELLOW GOLD

The Datejust, thanks to its aesthetics and functions, transcends changes in fashion. Aesthetically, the Datejust has spanned eras, while retaining the enduring codes that make it, notably in its traditional versions, one of the most recognized and recognizable of watches.

## ROLESOR

Gold is coveted for its lustre and nobility. Steel reinforces strength and reliability. Together, they harmoniously combine the best of their properties. A true Rolex signature, Rolesor has featured on Rolex models since the early 1930s, and was trademarked as a name in 1933. It is one of the prominent pillars of the Oyster collection.

## THE JUBILEE BRACELET

The design, development and production of Rolex bracelets and clasps, as well as the stringent tests they face, involve advanced high technology. And, as with all the components of the watch, aesthetic controls by the human eye guarantee impeccable beauty. The Jubilee, a supple and comfortable five-piece link metal bracelet, was designed and made especially for the launch of the Oyster Perpetual Datejust in 1945.

## CHAMPAGNE-COLOUR DIAL

The dial is the distinctive face of a Rolex watch, the feature most responsible for its identity and readability. Characterised by hour markers fashioned from 18 ct gold to prevent tarnishing, every Rolex dial is designed and manufactured in-house, largely by hand to ensure perfection.

## 3235 MOVEMENT

This model is equipped with a new generation movement, calibre 3235, entirely developed and manufactured by Rolex for a superlative level of performance. Certified as a Swiss chronometer by COSC (Swiss Official Chronometer Testing Institute), it is tested a second time by Rolex after being cased to ensure that in everyday use it satisfies Rolex's criteria for precision, which are twice as exacting as those for an officially certified chronometer. This control of the final precision of the assembled watch is carried out using a methodology and high-technology equipment specially developed by Rolex.

## WHAT A DIFFERENCE A DATE MAKES

Influenced by the pioneering Datejust, the date on the Datejust 41 is displayed in a window at 3 o'clock and changes instantaneously. The Cyclops lens on the crystal, invented by Rolex in 1953, magnifies the date for easy reading.

## MODEL CASE

---

### MODEL CASE

Oyster, 41 mm, Oystersteel and yellow gold

### OYSTER ARCHITECTURE

Monobloc middle case, screw-down case back and winding crown

### DIAMETER

41 mm

### MATERIAL

Yellow Rolesor - combination of Oystersteel and 18 ct yellow gold

### BEZEL

Fluted

### WINDING CROWN

Screw-down, Twinlock double waterproofness system

### CRYSTAL

Scratch-resistant sapphire, Cyclops lens over the date

### WATER-RESISTANCE

Waterproof to 100 metres / 330 feet

## MOVEMENT

---

### MOVEMENT

Perpetual, mechanical, self-winding

### CALIBRE

3235, Manufacture Rolex

### PRECISION

-2/+2 sec/day, after casing

### FUNCTIONS

Centre hour, minute and seconds hands. Instantaneous date with rapid setting. Stop-seconds for precise time setting

### OSCILLATOR

Paramagnetic blue Parachrom hairspring. High-performance Paraflex shock absorbers

### WINDING

Bidirectional self-winding via Perpetual rotor

### POWER RESERVE

Approximately 70 hours

## BRACELET

---

### BRACELET

Jubilee, five-piece links

### BRACELET MATERIAL

Yellow Rolesor - combination of Oystersteel and 18 ct yellow gold

### CLASP

Folding Oysterclasp with Easylink 5 mm comfort extension link

## DIAL

---

### DIAL

Champagne-colour

### DETAILS

Highly legible Chromalight display with long-lasting blue luminescence

## CERTIFICATION

---

### CERTIFICATION

Superlative Chronometer (COSC + Rolex certification after casing)
