

OYSTER PERPETUAL
MILGAUSS

ROLEX

WEARING THE WATCH FOR THE FIRST TIME

Before being worn for the first time, or if it has stopped, a Rolex watch must be wound manually in order to function correctly and precisely. To wind the watch manually, unscrew the winding crown completely, then turn it several times clockwise. (Turning in the other direction has no effect.) A minimum of 25 turns is required for adequate partial winding. The watch will then be wound automatically as long as it is worn on the wrist. Carefully screw the crown back down against the case to ensure waterproofness.

The green seal accompanying your Rolex watch is a symbol of its status as a Superlative Chronometer. This exclusive designation attests that it has successfully undergone a series of specific final controls by Rolex in its own laboratories in addition to the official COSC certification of its movement. This unique testing of its chronometric precision, waterproofness, self-winding and reliability pushes back the boundaries of performance and makes Rolex a benchmark for excellence in mechanical watches. MILGAUSS

OYSTER PERPETUAL MILGAUSS

The Oyster Perpetual Milgauss, the watch par excellence of technological and scientific progress, reconciles strong magnetic fields and chronometric precision.

It was created in 1956 for engineers and technicians who are exposed in their work to magnetic fields which disrupt the performance of mechanical watches. The Oyster Perpetual Milgauss was designed to resist strong interference of up to 1,000 gauss, hence its name, while maintaining excellent chronometric performance.

Aesthetically, the Oyster Perpetual Milgauss stands out with its orange seconds hand shaped like a lightning bolt, which was inspired by the original model. Its 40 mm Oyster case, waterproof to a depth of 100 metres (330 feet), is a paragon of robustness. Its dial offers exceptional legibility thanks to the Chromalight hour markers and hands filled with a luminescent material emitting a long-lasting blue glow when in darkness. Its sapphire crystal is virtually scratchproof.

The Oyster Perpetual Milgauss is equipped with a self-winding mechanical movement entirely manufactured by Rolex.

It features an Oyster bracelet with an Oysterclasp and the Easylink comfort extension link.

OVERVIEW

- 1 Hour hand
- 2 Minute hand
- 3 Seconds hand
- 4 Twinlock winding crown with
double waterproofness system

SETTING THE WATCH

Screwed-down position (*position 0*)

The crown is completely screwed down against the case. When the crown is in this position, the Oyster Perpetual Milgauss is guaranteed waterproof to a depth of 100 metres (330 feet).

Manual winding (*position 1*)

The crown is unscrewed. To wind the watch manually, turn the crown clockwise; turning in the other direction has no effect. When setting the watch for the first time or after the watch has stopped, complete a minimum of 25 turns for partial winding.

Setting the time (*position 2*)

The crown is unscrewed and pulled out to the first notch. The seconds hand is stopped, allowing you to set the time to the precise second. To set the hour and minute, turn the crown in either direction.

Initial winding and setting

- A. Wind the watch manually (*position 1*).
- B. Set the time (*position 2*).

After every use, carefully screw the crown back down against the case to guarantee the waterproofness. Return the crown to *position 1* and apply light pressure on it while screwing it down clockwise against the case. The crown should never be unscrewed underwater.

EASYLINK COMFORT EXTENSION LINK

To ensure optimal comfort when wearing your watch in any circumstances, Rolex created the Easylink comfort extension link, which is available on some models. Its exclusive design, which was patented, allows the length of the bracelet to be adjusted by approximately 5 mm, without the use of tools.

CARING FOR YOUR ROLEX

Thanks to Rolex expertise, your watch will require very little day-to-day care.

You can help preserve its lustre by cleaning it occasionally with a microfibre cloth. You can also wash the case and bracelet from time to time using soapy water and a soft brush. After wearing your watch in the sea, it is important to rinse it with fresh water to remove any salt and sand deposits.

Before cleaning your watch, always ensure that the crown is screwed down properly against the case to guarantee waterproofness.

AFTER-SALES SERVICE

Rolex watch servicing ensures that your timepiece will continue to perform optimally and meet Rolex's stringent requirements in terms of precision, reliability and waterproofness throughout its life.

The timekeeping accuracy of your watch is largely dependent on high-performance lubricants specially developed by Rolex to minimize friction and prevent wear of components. To guarantee continued accuracy and waterproofness, Rolex recommends that you periodically return

your watch to an Official Rolex Retailer or Service Centre for professional servicing. When your watch is serviced by a Rolex watchmaker, the watch is completely dismantled and all of its components are cleaned. Each individual component is closely examined and those that no longer meet Rolex's functional and aesthetic specifications are replaced with genuine Rolex parts. The movement is carefully lubricated then tested to guarantee its timing accuracy; the case and the metal bracelet are meticulously refinished to restore

their lustre. Your Rolex then undergoes a series of rigorous technical tests and checks to guarantee its waterproofness, power reserve and precision.

After a complete Rolex service, your watch is covered by a service guarantee.

WORLDWIDE SERVICE NETWORK

The network of Official Rolex Retailers and Service Centres covers more than 100 countries around the world and draws on the expertise of highly skilled watchmakers, carefully selected and trained by Rolex.

Official Rolex Retailers can advise you on all the technical aspects of your watch's functions. Whether your bracelet needs sizing or it is time for a complete service, highly qualified Rolex watchmakers are on hand worldwide to meet all of your service needs.
