

NEW WATCHES 2020

ROLEX IS INTRODUCING THE LATEST CREATIONS IN ITS OYSTER PERPETUAL COLLECTION

This year, Rolex is unveiling the new generation of its Oyster Perpetual Submariner and Oyster Perpetual Submariner Date divers' watches. The timepieces' redesigned, slightly larger 41 mm case is equipped with calibre 3230 and calibre 3235 respectively. The white Rolesor version (combining Oystersteel and 18 ct white gold) of the Oyster Perpetual Datejust 31 adopts calibre 2236 and new elegant, refined dials. The Oyster Perpetual range

is enhanced with a new model, the Oyster Perpetual 41, as well as novel versions of the Oyster Perpetual 36 with lacquer dials in vibrant colours. The Oyster Perpetual Sky-Dweller in 18 ct yellow gold is fitted with an Oysterflex bracelet; it is the brand's first watch from the Classic category to feature this innovative bracelet made of high-performance black elastomer.

OYSTER PERPETUAL SUBMARINER

CONQUERING THE DEEP

OYSTER PERPETUAL

SUBMARINER

Rolex is introducing the new generation of its Oyster Perpetual Submariner and Oyster Perpetual Submariner Date, watches that exemplify the historic links between Rolex and the world of diving. Both timepieces now feature a redesigned, slightly larger 41 mm case – whose profile is highlighted by the light reflections from the case sides – and are fitted on a remodelled bracelet. They are equipped with movements at the forefront of watchmaking technology – the Submariner with calibre 3230, unveiled by the brand this year, and the Submariner Date with calibre 3235, offering both time and date functions, and used in the Submariner range for the first time.

True to its aesthetic heritage, the new Submariner in Oystersteel has a black dial and rotatable bezel with matching Cerachrom insert. A yellow Rolesor version (combining Oystersteel

and 18 ct yellow gold) of the Submariner Date presents a royal blue dial with a rotatable bezel and a blue Cerachrom insert.

Two versions of the Submariner Date, one in Oystersteel and the other in 18 ct white gold, bring distinctive colour combinations, with the dial and Cerachrom insert in different hues. The first watch blends a black dial with a green bezel, while the second proposes a black dial and a blue bezel.

Like all Rolex watches, the Oyster Perpetual Submariner and Submariner Date carry the Superlative Chronometer certification, which ensures excellent performance on the wrist. The Superlative Chronometer status is symbolized by the green seal that comes with every Rolex watch and is coupled with an international five-year guarantee.

ICONIC AESTHETICS

OYSTER PERPETUAL

DATEJUST

Four new white Rolesor versions (combining Oystersteel and 18 ct white gold) of the Oyster Perpetual Datejust 31 join the Datejust range.

The first watch, featuring a bezel set with 46 brilliant-cut diamonds, has an aubergine, sunray-finish dial that is adorned with a diamond-set Roman VI. The three other versions are fitted respectively with a mint green, sunray-finish dial, white lacquer dial, or dark grey, sunray-finish dial, and a fluted bezel in 18 ct white gold. The hands and index hour markers or Roman numerals on all four watches are in 18 ct white gold. The light

reflections on the case sides and lugs highlight the elegant profile of the 31 mm Oyster case.

These new watches are equipped with calibre 2236, a movement at the forefront of watchmaking technology.

Like all Rolex watches, the Oyster Perpetual Datejust 31 carries the Superlative Chronometer certification, which ensures excellent performance on the wrist. The Superlative Chronometer status is symbolized by the green seal that comes with every Rolex watch and is coupled with an international five-year guarantee.

OYSTER PERPETUAL

DARING AND PANACHE

OYSTER PERPETUAL

The Oyster Perpetual range is enhanced with a new model, the Oyster Perpetual 41, as well as versions of the Oyster Perpetual 36 displaying dials in vivid colours. The light reflections on the case sides highlight the elegant profile of the Oyster case, which is made from Oystersteel. Measuring 41 mm or 36 mm respectively, it is fitted with a domed bezel.

One version of the Oyster Perpetual 41 has a novel configuration: its silver, sunray-finish dial is graced with hands and hour markers in 18 ct yellow gold. A second version is introduced with a bright black, sunray-finish dial and hands and hour markers in 18 ct white gold.

The Oyster Perpetual 36 is unveiled with a dynamic and vibrant new look, offering lacquer dials in five new colours: candy pink, turquoise blue, yellow, coral red and green.

The new generation of the Oyster Perpetual model has a Chromalight display: the hands and hour markers are coated or filled with a luminescent material that emits a long-lasting blue glow in dark conditions.

The Oyster Perpetual 41 and the new versions of the Oyster Perpetual 36 are equipped with calibre 3230, a movement at the forefront of watchmaking technology, launched by Rolex this year.

Like all Rolex watches, the Oyster Perpetual 41 and Oyster Perpetual 36 carry the Superlative Chronometer certification, which ensures excellent performance on the wrist. The Superlative Chronometer status is symbolized by the green seal that comes with every Rolex watch and is coupled with an international five-year guarantee.

OYSTER PERPETUAL SKY-DWELLER

AN INVITATION TO TRAVEL

OYSTER PERPETUAL

SKY-DWELLER

The Oyster Perpetual Sky-Dweller is presented with an Oysterflex bracelet. Crafted from 18 ct yellow gold, this new version is the first watch from the Classic category to be fitted with this innovative bracelet made of high-performance elastomer. It also features a bright black, sunray-finish dial with hands and hour markers in 18 ct yellow gold. The light reflections on the case sides and lugs highlight the refined profile of the 42 mm Oyster case.

This new version is of course equipped with the fluted, rotatable bezel unique to the Sky-Dweller, which is used to set the watch in conjunction with the Ring Command system.

It also has a Chromalight display: the hands and hour markers are coated or filled with a luminescent material that emits a long-lasting blue glow in dark conditions.

This new version of the Sky-Dweller is equipped with calibre 9001, at the forefront of watchmaking technology.

Like all Rolex watches, the Oyster Perpetual Sky-Dweller carries the Superlative Chronometer certification, which ensures excellent performance on the wrist. The Superlative Chronometer status is symbolized by the green seal that comes with every Rolex watch and is coupled with an international five-year guarantee.

All Rolex watches are assembled by hand with the utmost care to ensure exceptional quality. Such high standards naturally restrict our production capacity and, at times, the demand for our watches outpaces this capacity. Therefore, the availability of certain models may be limited.

New Rolex watches are exclusively sold by Official Rolex Retailers, who receive regular deliveries and independently manage the allocation and sales of watches to customers. Official Rolex Retailers can provide information on the availability of Rolex watches.
