

OYSTER PERPETUAL SUBMARINER

CONQUERING THE DEEP

OYSTER PERPETUAL

SUBMARINER

Rolex is introducing the new generation of its Oyster Perpetual Submariner and Oyster Perpetual Submariner Date, watches that exemplify the historic links between Rolex and the world of diving. Both timepieces now feature a redesigned, slightly larger 41 mm case – whose profile is highlighted by the light reflections from the case sides – and are fitted on a remodelled bracelet. They are equipped with movements at the forefront of watchmaking technology – the Submariner with calibre 3230, unveiled by the brand this year, and the Submariner Date with calibre 3235, offering both time and date functions, and used in the Submariner range for the first time.

True to its aesthetic heritage, the new Submariner in Oystersteel has a black dial and rotatable bezel with matching Cerachrom insert. A yellow Rolesor version (combining Oystersteel

and 18 ct yellow gold) of the Submariner Date presents a royal blue dial with a rotatable bezel and a blue Cerachrom insert.

Two versions of the Submariner Date, one in Oystersteel and the other in 18 ct white gold, bring distinctive colour combinations, with the dial and Cerachrom insert in different hues. The first watch blends a black dial with a green bezel, while the second proposes a black dial and a blue bezel.

Like all Rolex watches, the Oyster Perpetual Submariner and Submariner Date carry the Superlative Chronometer certification, which ensures excellent performance on the wrist. The Superlative Chronometer status is symbolized by the green seal that comes with every Rolex watch and is coupled with an international five-year guarantee.

OYSTER PERPETUAL SUBMARINER

THE SUBMARINER
AND SUBMARINER DATE
NOW FEATURE A
REDESIGNED, SLIGHTLY
LARGER 41 MM CASE.

CASE

Diameter
• 41 mm

Material
• Oystersteel

Middle case
• Satin finish with polished sides

Bezel
• Unidirectional rotatable
• 60-minute graduated monobloc
Cerachrom insert in black
ceramic; moulded, recessed
graduations and numerals

Waterproofness
• 300 metres (1,000 feet)

MOVEMENT

• Calibre 3230, *Manufacture Rolex*
• Mechanical movement
with bidirectional self-winding
via Perpetual rotor

Precision
• $-2/+2$ sec/day, after casing

Functions
• Centre hour, minute and
seconds hands

Oscillator
• Paramagnetic blue Parachrom
hairspring
• Paraflex shock absorbers

Escapement
• Chronergy with optimized
energy efficiency

Power reserve
• Approximately 70 hours

DIAL

• Black lacquer
• Hour markers in 18 ct white gold,
Chromalight
• Hands in 18 ct white gold,
Chromalight

BRACELET

• Oyster, solid links
• Oystersteel
• Oysterlock folding safety clasp
• Rolex Glidelock extension system
(approx. 20 mm in increments
of approx. 2 mm)

WECHAT

All Rolex watches are assembled by hand with the utmost care to ensure exceptional quality. Such high standards naturally restrict our production capacity and, at times, the demand for our watches outpaces this capacity. Therefore, the availability of certain models may be limited.

New Rolex watches are exclusively sold by Official Rolex Retailers, who receive regular deliveries and independently manage the allocation and sales of watches to customers. Official Rolex Retailers can provide information on the availability of Rolex watches.
